EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance:

None of the references discloses alone or in combination an optical fiber coupler reinforcing member for housing and protecting an optical fiber coupler main body in a longitudinal groove; wherein the groove is provided in a shaft member having a U-shaped cross-section; and further the shaft member has a flat exterior bottom surface along the longitudinal direction thereof and a polygonal shape in cross-section, in combination with the remaining claimed limitations.

The most relevant references, Hoshino et al. (JP-57196209) disclose a reinforcing member having a U-shaped deep groove provided in a circular shaft member (see figure 1). And Tomoyuki et al. (JP-03267903) disclose a reinforcing member having a U-shaped groove provided in a shaft member, which has a flat exterior bottom surface; however, it appears that the shaft member does not have a polygonal shape in cross-section (see figures 1 and 2). Thus, neither Hoshino nor Tomoyuki reference disclose or suggest the optical fiber coupler reinforcing member device with all the limitations above.

Claims 1 and 3-17 are therefore allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art documents submitted by applicant in the Information Disclosure Statement filed on 03/17/2005, have all been considered and made of record (note the attached copy of form PTO-1449). These documents also fail to disclose or suggest the limitations above.
